## FOREST FRIENDS

När julen nalkas blir skogens alla djur goda vänner. Stora som små hjälps åt, alla är välkomna. Tillsammans vill de fira julens glädje.

As Christmas draws close, the animals of the forest become good friends. Big and small help each other, all are welcome. Together, they celebrate the joy of Christmas.

Wenn Weihnachten näher rückt, werden die Tiere des Waldes gute Freunde. Groß und Klein helfen sich gegenseitig, alle sind herzlich willkommen. Gemeinsam feiern sie die Weihnachtszeit.

# CONSTRUCTION

**HINGED/UMBRELLA TREE**  
The branches are permanently attached to the stem in hinges and are folded down when assembling.

**HOOK ON ASSEMBLY**  
Individual groups of branches are hooked onto the stem when the tree is being assembled. This design is used for very thick and full trees to allow them to be evenly shaped but cannot be used for pre-lit trees.

**WRAPPED ASSEMBLY**  
The most common type of construction. The branches are directly attached to the stem and are bent down when shaping the tree. No assembly is required, but the large trees come in separate parts that have to be put together.
